

Moandji Ezana *SOFTWARE DEVELOPER*

I am passionate about software. I love solving the business and technical challenges of creating a great product or piece of code. I [create](#) and [contribute](#) to a number of open source projects. I study the craft continuously to improve my programming, tools and work practices.

Full project and employer details are available on my [LinkedIn profile](#).

Skills

Java

8 years of everyday use, mostly using the Eclipse IDE
Spring 3, Spring MVC, Play! 2, JPA / Hibernate 3, Struts 1 & 2, Guice, Maven, JUnit
Currently learning Java 8 with a text editor and the command line

Web

Regular use of HTML, CSS & JavaScript. Libraries include JQuery, AngularJS and Twitter Bootstrap. I am currently studying Node.

Android

2 years of study, practice projects and commercial work

Methodologies

Agile / Scrum: project experience with both good and bad implementations

Other tools

Git, SVN, Tomcat, MySQL, Oracle, JIRA, various Continuous Integration servers

Languages

English & French: mother tongues
Dutch: Spoken fairly well. I have spent over a year in 100% dutch-speaking work environments.

Selected Products

I-Net Edge 2012-2013

A Ruby on Rails application for [I-Net Bridge](#). Clients created embeddable, data-rich widgets. I contributed at all levels, from back-end caching to front-end design ([screenshot](#)).

Tracker for Android 2011

Users can track their vehicles and gather detailed analytics. I did UI design, SOAP web service integration and 3rd-party mapping library integration.

Truvo MySite 2009-2010

Customisable, [award-winning](#) merchant websites within Yellow Pages listings in Belgium, Ireland and Portugal ([website](#), [presentation](#), [screenshot](#)).

I contributed most to the website customisation tools: a sophisticated WYSIWYG drag & drop interface to customise a customer's website, an extensible CSS-based skinning system and a module system to encapsulate site functionality.

Selected Open Source Projects

[bootstrap_forms](#)

[contributor] Ruby on Rails form builder for Twitter Bootstrap.

[resteasy-guice](#)

[contributor] [Guice](#) integration for JBoss's [RESTEasy](#) JAX-RS implementation.

[webjars-maven-plugin](#)

A Maven plugin that brings [Bower](#)-like ease of use to Java and [WebJars](#).

[humpty](#)

A simple framework to manage, compile, minify, etc. web assets, using [WebJars](#).
